# „ČRNINE“

Izrazni fotograf Vasja Leban nam opus predstavlja v novi podobi. Z odstranitvijo barv je posnetke osvobodil časovne opredelitve. Ni več važno, kdaj so se zgodili, saj so postali nadčasni. Glasniki vseh časov. S trdim podajanjem tudi prostorske opredelitve ni več. Dokumentarnost je izničena. Prostor obvladuje črna barva. Nosilka skrivnosti, čarovnije, fantazije. Nevesta veselja, iz katerega vse nastaja, v katero vse izginja. Odprta je v čas. Okrasje sivih tonov je večinoma odstranjeno. Kraljujeta črnina in njen slepeč negativ svetloba. Izraz je močan, izraz je vesoljski. Razum je vratar. Vstopnica je čustvena občutljivost. Brez nje smo riba na suhem. Z njo smo vidci. Motivni svet je raznolik. Bližinska fotografija, portret, arhitektura, krajine, krajinski detalj, življenje, uprizorjeni žanr. Vendar domišljena zasnova vse družji v vsebinsko polnost.

Po razstavi Univerzum (2011) Vasja Leban s Črninami drugič potrjuje, da poleg klubske fotografije obvlada tudi galerijsko. Še več! Galerijske postavitve, ki slavijo koncept, izrazna moč vključenih fotografij pa pogosto močno niha, je oplemenitil s klubskim načelom, da v kolekcijo ne spada nobena fotografija, ki ne zmore živeti sama zase. Take so pač zahteve planetarnih razstav.

# „BLACKNESS“

The expressive photographer Vasja Leban presents us photographic work of a new image. By removing the colour, he frees the photos of time definition. It does not matter when the photos were taken because they are above time. Heralds of all times. With hard presentation there is no more spatial definition. Documentary is nullified. Space is dominated by black colour which is the bearer of secrets, magic and fantasy. The bride of the universe, from which all is created and into which all is vanishing. The colour which is open in time. The ornate gray is mostly removed. It is blackness and its blinding negative - the light that reign. The expression is powerful and spacious. Common sense is the doorkeeper. The entrance ticket is emotional sensitivity. Without it, we are like a fish out of water. With it we are seers. Motifs are varied. Proximity photography, portraits, architecture, landscapes, landscape details, life, staged genre. However, a thoughtful design blends everything into a meaningful perfection.

After the exposition "The Universe" (2011) Vasja Leban is proving for the second time with "Blackness" that, in addition to club photography, he masters gallery art as well. Even more. Although the expressive power of his photographs often varies significantly, his gallery exhibits celebrate the concept. He has enriched them with a club principle that any photography which cannot live for itself does not belong to the collection. Such are the requirements of planetary exhibitions.
